Dear Dr Moe,

We recently received a donation from Carol and John Kelly in your honor for the gift of 1 annual scholarship to our Girls Scholarship Program.

The girls in our program have been given the opportunity to graduate and join the workforce. This is a great achievement in a troubled country such as Honduras where the majority of impoverished girls do not attend school past the 6th grade. This generous gift will help give a girl the opportunity to make the right choices for their future.

Our scholarship program has been very successful in empowering women in their own communities and a success for those girls that are committed to take advantage of this opportunity.

Our girls also regularly participate in group activities, outings and seminars which help increase their self esteem, nurture pride in their culture and provides them with a more balanced life. It also creates an atmosphere for bonding and camaraderie with the other girls in the program. This thoughtful gift will help us help some of the world's most vulnerable and disadvantaged children.

With gratitude,

Suzanne White
